

## **A Message from the Athletic Director**

Welcome to what promises to be yet another exciting year for SAA-SDS Athletics. We are anticipating great things from our Athletic Department and from all the sport's programs.

The athletic program at SAA-SDS strives to be competitive at the highest level in all sports and recognizes the importance of each and every student-athlete. We also realize that sports are just part of the overall purpose of developing the spiritual, physical, and moral gifts of our student athletes within academic excellence. We have a unique program offering sports K-12 knowing that expectations are different at each level. Through the combined efforts of our administration, faculty and staff, coaches and players, parents, supporters and our Booster Club, we know that academic and athletic development work for the betterment of our student-athletes.

Let us keep in mind that winning championships are not the only measure of success. The success lies within the enjoyment, preparation and dedication to compete at the highest level.

To the families and parents of our student-athletes we say thank you for allowing us to be part of your children's life. We appreciate the opportunity to work with these young people who make the job of coaching a labor of love.

I am extremely proud of the entire coaching staff and trust that this year will only add to the strong athletic tradition that is so much a part of St. Agnes-St. Dominic School.

### **Go Stars and Suns**
